

Evolutionary Biology meets the Antibiotic Crisis vol. 2

Wednesday 25 September 2024

Session: 7 (16:00 - 18:20)

-Conveners: Nancy Obeng

time	[id] title	presenter
16:00	[19] Limiting the spread of resistance on plasmids	UECKER, Hildegard
16:40	[20] An evolutionary perspective on antibiotic treatment	BATRA, Aditi
16:55	[21] In Vitro Selection vs. In Vivo Adaptation: Unveiling Divergent paths in Antimicrobial Resistance Evolution (Insilco study)	ELBEDIWI, Mohammed
17:10	[22] Non-canonical antibiotic interactions.	RÖMHILD, Roderich
17:25	[23] Evolutionary consequences of variation in mutation rates for antibiotic resistance	BUCHHOLZ, Florian
17:40	[24] The evolution of antibiotic resistance islands in plasmids	DAGAN, Tal
