

Causes and Consequences of Inclusive Inheritance

Friday, November 8, 2019

Session 6: Eco-Evolutionary Consequences of transgenerational inheritance - Lecture Hall (9:00 AM - 12:30 PM)

time	[id] title	presenter
9:00 AM	[27] Keynote: The many roles of parental effects in evolutionary biology	ULLER, Tobias
9:30 AM	[28] Causes and consequences of seasonal transgenerational plasticity in a precocial rodent	GÜNTHER, Anja
9:45 AM	[29] Transgenerational plasticity and bet-hedging: a framework and a meta-analysis on insect diapause reaction norms	JOSCHINSKI, Jens
10:00 AM	[30] Epigenetic gene silencing alters the mechanisms and rate of evolutionary adaptation	STAJIC, Dragan
10:15 AM	Coffee Break	
10:45 AM	[31] Keynote: Plant epigenomics: from complex traits to molecular clocks	JOHANNES, Frank
11:15 AM	[32] General discussion of evolutionary underpinnings and consequences	
12:15 PM	[33] Closing remarks
