

Evolution of interacting populations

Monday 16 September 2019

Session 3: Session 3 - Lecture Hall (09:00-11:00)

time	[id] title	presenter
09:00	[10] Spatial eco-evolutionary feedbacks mediate coexistence in prey-predator systems	COLOMBO, Eduardo Henrique
09:20	[11] Emergence of a stable nonequilibrium bacteria-phage collective state from scale-dependent feedback	SHIH, Hong-Yan
09:40	[12] Stochastic colonization of microbe-free hosts	ZAPIEN, Roman
10:00	[13] Towards constructing a mathematically rigorous framework for modelling evolutionary fitness	MOROZOV, Andrew
