

Fungal Symposium 2019

Tuesday 03 September 2019

Session 2: Genomics, genetics, and the secrets of Fungal evolution - Lecture Hall (14:00-17:30)

time	[id] title	presenter
14:00	[7] Diversity of smut fungi – from taxonomy to evolution	BEGEROW, Dominik
14:50	[8] Population genomics of the maize pathogen <i>Ustilago maydis</i>	DUTHEIL, Julien
15:10	[9] Connecting genomic signatures, nutritional strategies and function in mushroom forming fungi	FLOUDAS, Dimitrios
16:00	Coffee	
16:20	[10] Histone modifications affect the mutation rate in a plant pathogenic fungus	HABIG, Michael
16:40	[11] Panama disease strikes global banana production, again	KEMA, Gert
