

# Modeling Diversity in Cancer And Virus Evolution

## Wednesday 16 May 2018

### Session 5 - Lecture Hall (09:00-10:30)

time	[id] title	presenter
09:00	[13] Estimating the mutational fitness effects distribution during early HIV infection	REGÖS, Roland
09:50	[14] Detection of Immune-mediated negative selection using dN/dS	ZAPATA, Luis
10:10	[15] Pathways to resistance in growing populations over fitness valleys	NICHOLSON, Michael
