

Modeling Diversity in Cancer And Virus Evolution

Wednesday 16 May 2018

Session 7 - Lecture Hall (13:40-15:10)

time	[id] title	presenter
13:40	[19] Evolution of Clonal Heterogeneity in Chronic Myelomonocytic Leukemia	FERRALL-FAIRBANKS, Meghan
14:20	[20] Immunogenicity and tumor dormancy in brain metastases: comparison of central and peripheral markers of tumor dormancy in relation to NKG2DL expression	FLUEH, Charlotte
14:45	[21] Front dynamics and evolution associated with spatial spread	MOEBIUS, Wolfram
