

# Modeling Diversity in Cancer And Virus Evolution

## Thursday 17 May 2018

### Session 9 - Lecture Hall (11:00-12:00)

time	[id] title	presenter
11:00	[5] The dynamics of adaptive genetic diversity during the early stages of clonal evolution	BLUNDELL, Jamie
11:20	[26] How do cellular selection and diversity contribute to leukemic progression? Seeking answers using computational and mathematical analyses	ALTROCK, Philipp
